

Elke's Natural Shampoo/Conditioner

Thank you for choosing to purchase one of my products. As with all products containing Essential Oils, please check ingredients if you have any sensitivities to certain Oils. Generally contraindications for Essential Oils refer to when the Oil is used at 100% strength. My products are always heavily diluted in a base product such as Shea Butter; Moisturiser; Shampoo Base etc. If you are unsure, please check with your doctor before using any of my products.

Elke's Natural Shampoo & Conditioner are made using beautiful essential oils rich in qualities which assist in protecting; nourishing and enriching the hair and scalp quality. Tea tree and Oil of Oregano are rich in anti-bacterial and anti-inflammatory properties, as well as many others; they are also beneficial for sensitive skin conditions; treat dandruff; and dry scalp. Sandalwood helps increase and restore hairs ability to retain moisture; thereby making it soft and luxurious. Thyme is rich in anti-septic qualities, stimulates blood flow, and invigorates the scalp. Lavender is useful for treating itchiness and dandruff, and helps balance natural scalp oils. It soothes the scalp and calms hair, as well as promoting hair growth.

Directions For Use:

Shake shampoo & conditioner before use to ensure the essential oils have not settled. Use as required. Leave conditioner in hair for approximately 3-4 minutes.

You will only need a very small amount – about the size of a 10cent piece. If hair does not lather the first time you use it, wash it a second time. Generally, it foams easily, but it can depend on whether your water is hard or soft; and also how many chemicals and products have built up on your hair.

Please note: Individual results may vary.

Price: \$12.50/125ml bottle (larger bottles can be made to order)

Postage = \$10.00 for under 500 grams.

Payment can be made by Paypal or direct deposit or via the website.
